

Lumens Pre-Primary Vs. Conventional Pre-Schools

VIRTUE	LUMENS	OTHERS
Education	Quality and Creative Innovative, Systematic approach	Rote-learning and reproduction
Attention to children	2 Teacher for 25 students in class	40 students in class
Level of English	All English-speaking teachers	?
Teacher Coaching	* Continuous Coaching given to teacher in QuadSeek method * Regular coaching given to parents to help them understand QuadSeek method and help their child at home	No training given
Physical Programs	* 60 early-age exercises for strengthening body and motor Coordination by stimulating five senses * Gymnastics, martial arts and Athletics Sr KG onwards by coaches who are National level players .	No early physical activity
Music	* Rhymes and songs related to concepts covered in the curriculum * Songs from movies like Sound of music, Jungle book, Poldy Songs	Century old rhymes with no connection to what is taught in the class
Teaching Language	* We follow the approach exactly as prescribed in NEP, which is Listen-Speak-Read-Write * Well defined approach to help child speak good language * Well defined program to help child read fast with comprehension * Innovative technique to teach spelling through games	Since over a century, *Start with sleeping, standing and slant lines *Mug up A for Apple and so on. *Write 2 letter words, then 3 letter words multiple times and by heart spellings. *No focus on spoken language
Teaching Math	*Children learn addition and subtraction without using fingers, as we do later as an adult, thus reducing mistakes and increasing speed *Children learn tables effortlessly	*Learn addition and subtraction by counting on finger, which is confusing and error prone. *Children try to mug up table songs and writing it multiple times.

VIRTUE	LUMENS	OTHERS
GK	In pre-primary, the child learns... * States and capitals of India * Geographical features of India * Plants, animals, flowers, fruits, leaders, food, mines, minerals of India * 30-40 countries of the world on world map * Their capitals, monuments, clothes, dance forms * Regions of the world * Respiratory system, Circulatory system, digestive system, Ear canal system, Eye ball system etc * Litmus test * Motion, friction, magnets, electro magnets * Stories of independence movement and leaders All of the above is taught in seconds through games, children enjoy with a purpose that child develops and speaks fluent English through all of the above activities.	Rote-learning and reproduction
GK Moral Values	Through stories and helping the child think and conclude for self	Moral conduct instructions!
Meals	* Guide parent to send healthy food. Kids also learn the eating habit with dinning etiquettes at early age. * Children are given healthy Supervita every day in the school	Children wake up too early and don't end up eating anything much until they reach home.
